

## Wester Ross Fisheries Trust: Seagrass Project Officer (part-time)

We are seeking to appoint a short term Project Officer for our exciting seagrass restoration project. The ideal candidate will have enthusiasm for marine conservation, and experience in practical conservation work, project planning and working with volunteers.

As part of a small friendly team, the role will include surveying seagrass and potential restoration sites using a variety of desk based and field work methods. It will also involve collection, propagation and planting of seagrass as well as assisting in managing the seagrass nursery. This project is supported by the Scottish Marine Environmental Enhancement Fund (SMEEF).

Location: Gairloch, with field sites in Loch Ewe and nearby

Salary: £30,160 pro-rata. 6 month fixed term contract

Hours: 24 hours per week (0.6 FTE), with flexible hours required to suit project goals.

Additional hours may be available for wider WRFT work depending on availability and experience.

Closing date: 31<sup>st</sup> March

Interviews: Mid-April

For full job details and information on how to apply, please email Sue at [admin@wrft.org.uk](mailto:admin@wrft.org.uk) or Diorbhail at [seagrass@wrft.org.uk](mailto:seagrass@wrft.org.uk)

You can also email if you wish to arrange an informal chat.

## Wester Ross Fisheries Trust: Working with Rivers Intern

Job Title: Working with Rivers Intern

Temporary 6-month internship, May – Oct 2026

Location: 8 posts at various locations, including Wester Ross

Fair living wage at £13.45 per hour, paid monthly

Closing Date: 19th March

Interview Date: week commencing 30th March

Fisheries Trusts promote conservation and good management of fisheries through a wide range of environmental monitoring and improvement works, and seek to raise awareness and educate the public about the aquatic environment. The Working with Rivers Intern will support the work of hosting Fisheries Trusts in Scotland, including one intern based in Gairloch with the Wester Ross Fisheries Trust (WRFT). Work at WRFT includes sea trout monitoring, juvenile salmon monitoring, seagrass restoration, aquatic invertebrate studies and other activities.

Internships are supported by SSEN, Nature Scot, Fisheries Management Scotland and Scottish Fisheries Coordination Centre.

For full job details and information on how to apply, please email Peter at [info@wrft.org.uk](mailto:info@wrft.org.uk) or Sue at [admin@wrft.org.uk](mailto:admin@wrft.org.uk)

Formal applications are by CV and covering letter to [general@fms.scot](mailto:general@fms.scot)
