

Gairloch Seashore and Snorkel Trail

Discovery Day - Wednesday 11th July

Gairloch Golf Course Beach 10am to 4pm.

Come along & find out about the amazing diversity of marine wildlife!

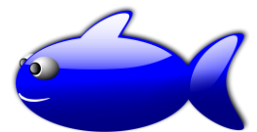

How many different kinds of crab and starfish live around An Dun? How many fishes inhabit the low-tide lagoon? How fast does a sea hare move? Who eats what?

We'll explore the seashore using assorted nets and other sampling equipment to look for animals living in the sand and in the shallow water around the headland nearby.

Peter Cunningham (Skye & Wester Ross Fisheries Trust), **Jenny Grant** (Highlife Highlands Countryside Ranger) and **Mike Kendall** (marine biologist) will all be on hand to help with activities, identification and explanation.

Introductory **family snorkelling safari sessions** at the far end of the beach will be led by **Noel Hawkins** (SWT Living Seas Project); warm drysuits will be available for hire from **Guy Melville** (Happy Diver UK - drysuit rental & sales); please **book your snorkel session in advance to ensure your place** (numbers limited).

For further information, please contact:

- Peter Cunningham 01445 712 899 info@swrft.org.uk
- Noel Hawkins 07734 359 593 nhawkins@scottishwildlifetrust.org.uk
